Opportunity to meet other Astronomy enthusiasts and learn from skilled observers

Observing Nights at the Club's Dark sky site during regular scheduled events

In Town meetings and presentations at Jenks High School planetarium

Monthly issues of the Astronomy Club of Tulsa's newsletter, "Observer"

Discounts on magazine subscriptions to "Sky and Telescope" or "Astronomy"

## JOINING THE ASTRONOMY CLUB of TULSA

A variety of membership rates are available including discounts for Sr. Adults and Students. Details on the [\*\*JOIN\*\*](#) section of our website **We accept Credit cards via our online link or Cash / Checks at events.**

**Monthly Observing Nights** at our dark sky site located on a hilltop near Mounds, OK. Our site features the ACT Observatory and classroom on an acre observing lawn. The observatory dome houses a 14-inch RCX 400 telescope plus our members set up several more telescopes outside for sharing views. We invite you to visit one of our scheduled events and enjoy a panoramic view of the rural night sky.

**CLUB MEMBERS OBSERVING NIGHTS** are held near the new moon for our club members to work on observing projects or share ideas with others. These are only open to our members and accompanying family members.

**GUEST OBSERVING NIGHT** An evening for non-member guests to visit the observatory and enjoy the stars. Our members will set up several telescopes to share the wonders of the night sky. We ask that you RSVP using our contact page on our website so we can be prepared for our guests. Event specific links are also on our website. Donations are appreciated. Suggested amount: \$ 5 Adults \$ 2 kids Free Under 6. No large groups please - these would require separate arrangements.

**All events are subject to Weather cancellations** – Check website and social media for updates on the event date.

**Monthly Club Meeting nights at Jenks High School planetarium** - During the School year we host in town meetings with guest speakers or other presentations on a variety of topics related to observing and astronomy.

**Club Newsletter, *The Observer*** Our newsletter includes a preview of our meeting topics, information about upcoming meetings and club events. The *Observer* also contains articles on astronomy topics, events, and other interesting observation opportunities.

**Members Facebook forum** – Members may join our Members Only Facebook to exchange ideas, share images or plan spontaneous observing. Also breaking astronomy news, such as new comets, upcoming eclipses, and other astronomical related news and events.

**Membership includes membership in the Astronomical League and access to the Night Sky Network**

The Astronomical League has developed many observing certificate programs to help you develop observing skills to better enjoy the many wonders of the night sky. <https://www.astroleague.org/>. The Night Sky Network is sponsored by NASA and JPL. It has many resources to help astronomy clubs promote astronomy. The Night Sky Network's website can be found at <https://nightsky.jpl.nasa.gov/>
