

NEW DIRECTIONS – For Smoother Roads

Directions to Astronomy Club Observatory

Our direct road on 241st is in poor condition – Very rough ride.

Do **NOT RELY ON GPS** – It will likely send you on poor back roads

If this is your first visit we recommend you PRINT OUT these instructions !

Follow these directions to get to the observatory safely on better roads

From TULSA - Proceed South on Highway 75, then:

1. Turn West onto 201st St at the Mounds. OK Exit
Drive 2.5 miles west into Mounds **OBSERVE ALL SLOW SPEED LIMITS !**
2. At the STOP sign Turn LEFT – Proceed south on Alt 75 Hwy.
3. Go 5 miles south to 251st St (also know as Garfield Road)
251st is PAVED
4. Turn Right – Proceed WEST THREE MILES to N 140 Rd (a dirt road)
It's a bit hard to see – Just a bit before you cross a tree lined creek bridge.
It's a dirt road but not too bad a shape.
5. Turn Right – proceed north 1 mile – Turn Left at Stop sign onto 241st St.
6. Follow that road west and then up a gravel hill –
7. At the top of the slope take the RIGHT SIDE at the Y in the road onto paved section.
8. Proceed about 1 mile north and got through our gate up to the observatory.
9. Guest Parking is on the Lot next to the large building with a microwave tower.

RETURNING Home

1. **SLOW DOWN** near the end of the paved section!
The hill is a steep curve and loose gravel.
2. Go to the FIRST RIGHT TURN – this is N 140 Rd – Go one mile South
A nice farmhouse near that corner
3. Turn Left onto 251st St – Proceed on paved road 3 miles to Alt 75 hwy.
4. Turn Left – Go 5 miles NORTH toward Mounds
Watch the Speed Limit SIGNS !!!
5. Turn Right at the first intersection and proceed SLOWLY toward highway 75
